

CS411 Team 7 User Stories

User story 1: As an existing user, I want to be able to log in with a social media account.

Secondary user story 1: Once I am logged in, I would like to be directed to the homepage where all my generated articles will be housed.

Secondary user story 2: If I am unable to log in with a third party (Facebook, Twitter, or Google), I would like to create a new account directly in the web app with Facebook, Twitter, or Google.

User story 2: Following user story 1, as a new user I want to be able to create an account.

Secondary user story 3: Once I've made an account I want to be directed to my homepage.

Secondary user story 4: If I am unable to create an account, I want to be able to view the gallery of pre-generated articles by other users of the app.

Secondary user story 5: I saw that someone posted a funny fake article on social media and I want to click their link to view it in the app.

Secondary user story 6: If I try to create an article I will be redirected to the registration page to create an account or login.

User story 3: As a user, I want to be able to specify my interests to read personalized satirical articles that I can save in a 'my articles' tab.

Secondary user story 7: If I am unable to specify my interests, I would like to find articles categorically via search bar.

User story 4: Following user story 3, as a user, I want to be able to have fake news articles generated after choosing specific topics.

Secondary user story 8: I'd like to have the article then uploaded to the main gallery for other users to see.

Secondary user story 9: If I can't generate articles using specific topics, I'd like to be able to use keywords.
